

TO THE FCC:

I subscribe and listen to Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available to me elsewhere. I pay for these services because local radio does not provide me with the services that I would like to have. With Satellite radio, I can chose what I want to listen to at the times that I desire. The National Association of Broadcasters does not have my personal interests in mind; it is only concerned with its pocketbook. I do not appreciate nor want it to dictate what I am permitted to hear, especially when I am paying for it.

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support satellite radio and XM's ability to provide the kind of programming that I want.

Thank you.
